

Adopting Rodents From Nibbles

To start the adoption process you will need to fill out an online adoption application which can be accessed by clicking the orange 'adopt me/us' button located under the details the animal/s we have currently available for adoption. The animals we currently have in our care can be found at www.nibbles.org.uk/adopt.html simply click on the species you are interested in adopting to be forwarded to their details.

If the animal you are interested in does not have an orange 'adopt' button then at present we are unable to take applications for this specific animal and therefore unable to deal with adoption enquires for them. Please keep checking the website for updates on availability.

Please note that due to time constraints we are unable to cater for visits to view the animals in our care until the homecheck has been passed.

Once you have submitted your adoption application we will be able to start the adoption process. Due to the very small team behind Nibbles and the number of animals in our care we simply don't have the available time to discuss adoption or the animals in our care prior to an application having been submitted.

We aim to reply to every application within 72 hours, if you have not received a response please firstly check your spam folders before contacting us again. At this stage we are able to either accept your application in principle or we will advise you on any changes you need to make. PLEASE NOTE: if you have previously submitted an application which wasn't successful we request that you reapply once the necessary alterations have been carried out. We require you to do this as a copy of your application is given to our volunteer homecheckers who require up to date information to successfully carry out the homecheck.

If your application has been accepted in principle we will then arrange for a homecheck to be carried out. Please be aware this usually takes around 7 days from the acceptance of your application.

Once the homecheck stage has been completed we are able to book an appointment for you to visit the centre and the animals we have in our care. All the rodents in the care of Nibbles are housed at our main centre which is located 6 miles outside Cardigan.

PLEASE NOTE: We are **unable** to reserve specific animals until the successful completion of the homecheck.
